Education

Johns Hopkins University

August 2025

Master of Science in Regulatory Science & Quality Assurance

Baltimore, MD

- **Relevant Coursework:** Clinical Drug Development & Trial Management, Biopharmaceutical Regulatory Strategy, GCP & cGMP Compliance, Risk Assessment & Management

University of Illinois at Urbana-Champaign

May 2022

Bachelor of Science in Bioengineering

Champaign, IL

- **Relevant Coursework:** Clinical Trial & Experiment Design, Regulation in Biotechnology, Surgical Device Technologies, Biomedical Data Science

Experience

Diablo Clinical Research - Flourish Research

June 2025 – Present

Quality Control & Data Management Specialist

Walnut Creek, CA

- Perform source data verification (SDV) across phase I-IV clinical trials in endocrinology, cardiology, device research, and vaccine studies, ensuring strict data and protocol compliance prior to sponsor and CRO site meetings
- Serve as site level point-of-contact for timely identification, verification, and reporting of medical history, vital signs, investigational product handling, adverse events/serious adverse events (AE/SAE), and other discrepancies into electronic data capture (EDC) systems
- Oversee compliance for informed consent documentation, investigational medicinal product (IMP) handling/reconciliation, and other protocol-required procedures in accordance with ICH-GCP, IRB requirements, and FDA regulations
- Collaborate cross-functionally with clinical research coordinators, regulatory specialists, study monitors/CRAs, and executive leadership during monitoring visits, query resolution, and audit readiness

Aetna & CVS Health

November 2022 – June 2025

Certified Pharmacy Technician – Outpatient Quality & Inventory Management

Pleasanton, CA

- Maintained SOP and cGMP adherence across pharmaceutical drug and medical device packaging and verification
- Reported serious and adverse drug reactions and events to respective regulatory agencies and pharmacy boards for commitment to pharmacovigilance, patient safety, and drug safety
- Applied working regulatory knowledge of FDA, DEA, and HIPAA compliance policies that govern pharmacy operations in daily practice
- Conducted routine audits of pharmaceutical inventory, prescription management, and document control practices to confirm compliance with California State Board of Pharmacy policy

Katz Diagnostics

August 2021 – Dec 2021

Research & Development Engineer

Chicago, IL

- Conducted interdisciplinary study to discover non-invasive approach to diagnosis of fibromyalgia
- Initiated current market research of existing diagnostic solutions for fibromyalgia and similar muscular diseases, and communicated findings of invasive methods detrimental to pharmacovigilance within medical device industry
- Designed and tested several prototype devices based on identified potential solutions for enhancement of patient safety; devices measured intramuscular pressure and muscle oxygenation via careful evaluation of imaging technologies and experimental methods associated with muscular disease research
- Studied medical device regulatory standards (ISO 14971, 13485) and FDA regulations concerning medical device development, and aimed to ensure proper adherence throughout prototype development and testing phases

Technical Skills

Technical: Python, R, SQL, Microsoft Office, Electronic Data Capture (EDC), Clinical Trial Management Systems (CTMS), CPT Diagnosis Coding

Concepts: Quality Assurance & Control, Patient & Drug Safety, Regulatory Requirements, Clinical Trial Management, Source Data Verification, Document Control, Inventory Management, Root Cause Analysis, Mass Spectroscopy, Flow Cytometry, Biomarkers, ISO 13485/14971, 21 C.F.R. Parts 210, 211, 600, 820
